

Section 24(c) Special Local Need Label

FIFRA 24(c) REGISTRATION
EPA SLN No. AZ-080003

FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF ARIZONA

This label is valid until December 31, 2023 or until otherwise amended, withdrawn, or cancelled

EPA Reg. No. 10163-200

ACTIVE INGREDIENT:

Bensulide: S-(O,O-diisopropyl phosphorodithioate) ester of N-(2-mercaptoethyl) benzenesulfonamide 46.0%

OTHER INGREDIENTS 54.0%

TOTAL 100.0%

KEEP OUT OF REACH OF CHILDREN CAUTION

For improved grass control and suppression of certain broadleaf weeds on transplanted Cole crops (**except Mustard Greens**).

DIRECTIONS FOR USE

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- All applicable directions, restrictions, and precautions on the EPA-registered label are to be followed.
- This labeling must be in the possession of the user at the time of pesticide application.

THREATENED AND ENDANGERED SPECIES

Special local needs (SLN) labels are important to Arizona's niche industries that face significant economic risks due to local pest problems. Our stewardship of this important labeling process must consider the potential off-target effects of any pesticide used in Arizona. This includes any potential harm to threatened or endangered (TE) species in our state. Please carefully consider the use of this pesticide and obtain as much information as you can to help ensure your application will have no impacts on TE species.

WEEDS CONTROLLED/SUPPRESSED

Broadleaf Weeds: Lambsquarters, Purslane, Redroot Pigweed

Grasses: Crabgrass, Fall Panicum, Foxtail, Goosegrass, Jungle Rice, Sprangletop, Watergrass, Barnyardgrass

CROP	BROADCAST RATE Quarts/Acre	COMMENTS
BRASSICA (COLE) LEAFY VEGETABLE GROUP* , including but not limited to: Broccoli, Broccolini, Broccoflower, Chinese Broccoli, Broccoli Raab (Rapini), Brussels Sprouts, Cabbage, Chinese Cabbage (Bok Choy, Napa), Chinese Mustard Cabbage (Gai Choy) Cauliflower, Cavalo Broccolo, Collards, Kale, Kohlrabi, Mizuna, Mustard Spinach, Rape Greens * Except Mustard Greens	6	Post-Transplant application: Apply Prefar within 24 hours of transplanting and when transplants are no larger than the 3-leaf stage. Application should be made by ground sprayer or chemigated through an overhead sprinkler system. Immediate irrigation is required for ground applications. For sprinkler irrigation, wet the soil at least 2-4 inches deep. For furrow irrigation, wet the entire bed top.

RESTRICTIONS

Do not enter treated fields without the EPA registered label prescribed personal protective equipment for 12 hours after application.
