DIRECTIONS FOR USE

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- Read the label affixed to the container before applying.
- Use of this product according to this labeling is subject to the use precautions and limitations imposed by the label affixed to the container.
- This labeling must be in the possession of the user at the time of pesticide application.

Weed Control in Seedling Alfalfa During Establishment

Treflan TR-10 may be applied as a preplant incorporated treatment for preemergence control of labeled weeds in seedling alfalfa. Apply and incorporate prior to planting according to product label directions.

Broadcast Application Rates:

Soil Texture	Treflan TR-10 (pounds/acre)
Coarse	5.0
Medium	5.0 – 7.5*
Fine	7.5

*Use lower rate in rate range in areas receiving less than 20 inches of rainfall and irrigation.

Precautions: Some crop stand reduction and stunting may occur with this use of Treflan TR-10, however, reduced weed completion will allow establishment of a quality stand.
